

testo 605-H1

Humidity measurement stick

Features:

- dew point calculation from -20 to +50°Ctd
- long-term stable Testo-humidity sensor
- perfectly suitable for in duct measurements
- turnable display for easy reading of measured values

Technical data

Humidity:	
measuring range:	+5...95 %rF
resolution:	0,1%rF
accuracy:	+/-3% rF
sensor:	Testo-humidity sensor
Temperature:	
measuring range:	0..+50°C
resolution:	0,1°C
accuracy:	+/-0,5°C
sensor:	NTC
selectable units:	°C / °F
Operation temp.	0...50°C
Battery type	Alcaline (3 x AAA)
lifetime	1000h
Dimensions	180 x 37 x 36 mm
